¹ The VALIC Company II Lifestyle Funds and the VALIC Company I Dynamic Allocation Fund invest in the funds offered in VALIC Company I and VALIC Company II. The Vanguard LifeStrategy Funds invest in other Vanguard funds. Thus, each "Fund of Funds" indirectly bears the fees and expenses of those acquired funds, which fees and expenses are shown in the Acquired Fund Fees & Expenses column and are also reflected in each fund's Net Fund Expenses.

² The principal value of an investment in a target date fund is not guaranteed at any time including at or after the target maturity date. The target date is the approximate date when investors plan to start withdrawing money. The fund will gradually shift its emphasis from more aggressive investments to more conservative ones based on its target date. Some target date funds maintain a substantial allocation to equities both prior to and after the target date, which can result in greater volatility over shorter time periods. If an investor plans to retire significantly earlier or later than age 65, the funds may not be an appropriate investment even if the investor is retiring on or near the target date. Read the prospectus carefully before investing.

* Pursuant to an Expense Limitation Agreement, the fund's advisor will waive fees and reimbursement expenses as shown in the column above. The expense waivers and fee reimbursements are voluntary and contractual and will continue through September 30, 2020 for VALIC Company I funds; December 31, 2020 for VALIC Company II funds; and June 30, 2020 for the Invesco Balanced-Risk Commodity Strategy Fund.

An investment in a money market fund is not insured by the Federal Deposit Insurance Corporation or any other government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.

Annuities are long-term retirement saving vehicles. Investment values of variable options will fluctuate so that the investor's units, when redeemed, may be worth more or less than their original cost. Bear in mind that investing involves risk, including possible loss of principal.

Income taxes are payable upon withdrawal. Federal restrictions and a 10% federal early withdrawal tax penalty may apply to withdrawals prior to age 59½.

Annuity contracts typically include limitations, exclusions, surrender charges and expense charges, which are described in the current Portfolio Director prospectus. Fees include Separate Account fees, which range from 0.55% to 1.05% depending on the contract, and Annual Net Fund Expenses, which range from 0.12% to 1.20% for the variable options. The current Annual Net Fund Expense is the current Annual Total Fund Expense less expense waivers or reimbursements. Fees are subject to change based on expense waivers and reimbursements. Additionally, account maintenance fees of \$3.75 per quarter and surrender charges may apply, depending on your contract.

Retirement plans and accounts that satisfy relevant qualification rules, such as 403(b)s, IRAs, 401(k)s, etc., can be tax deferred regardless of whether or not they are funded with an annuity. If you are considering funding a tax-qualified retirement plan or account with an annuity, you should know that an annuity does not provide any additional tax-deferred treatment of earnings beyond the tax deferral of the tax-qualified retirement plan or account itself. However, annuities do provide other features and benefits.

Investors should carefully consider the investment objectives, risks, fees, charges and expenses before investing. This and other important information is contained in the Separate Account and underlying fund prospectuses, which can be obtained from your financial professional, at www.aig.com/RetirementServices or calling 1-800-428-2542 and following the prompts. Read the prospectuses carefully before investing. Policy Form series UIT-194, UITG-194 and UITG-194P.
